TECHNICAL SPECIFICATIONS

HEXAGON RAGASCO. TRUSTED BY CONSUMERS AND BUSINESSES WORLDWIDE

With more than 12 million units in use in over 70 countries and an industry-leading safety record, Hexagon Ragasco composite cylinders have become the standard for user friendly LPG.

- Available in 6 standard sizes
- Hexagon Ragasco Cylinders can be delivered with a wide variety of different valves for different uses with vapor or liquid outtake.
- Unique cylinder sizes can be customized for each market based on volume considerations, including a special branding with different logos and colors.
- Hexagon Ragasco cylinders comply with a wide range of international standards and approvals. The principal ones include:
  - ISO 9001
  - ISO 11119-3
  - EN 12245
  - EN 14427
  - DOT-SP 12706
  - TC SU 5931
- Hexagon Ragasco Cylinders are subjected to extensive testing including: cycle testing, extreme temperature testing, long term ageing tests and static load fatigue tests.
- The most widely adapted inspection interval is 10 years. Periodic inspection in the European countries is done in accordance with ADR and ISO 11623. Some countries however, have 15 years inspection interval.
